

**Message No. 167 (Apparition No. 31) on Monday 5/12/2014
@ 2:49 A.M.**

The Visionary (V) was very troubled and agitated and was crying, after learning that a Satanic 'Black Mass' was scheduled to occur Monday evening, 5/12/2014, at Harvard University Cultural Studies Club. The V was praying intensely and asking the Blessed Mother and beseeching The Lord Jesus to manifest His power and stop this sacrilege. She was suffering greatly in body and soul, and kept walking back and forth in the room, where the Icon of the Virgin Mary is on display, and was wondering, as to how could it be that the people allow such a horrible insult to God and His beloved Son Jesus to take place. With thoughts rushing through her head, the V recalled what the Blessed Mother had once told her, and exclaimed 'O Virgin, how true you were when you said that the devil is winning over the world'.

While the V was thinking about this matter, bright and colorful lights began to shine and illuminate the room. The V, realizing that this is the prelude for the appearance of the Virgin Mary, knelt in front of the Icon and the Blessed Mother emerged from a halo of light and stood in mid-air in front of the V. luminous tears were flowing from the Virgin's eyes, and with a very sad voice, spoke to the V and gave her the following message, regarding the outrageous sacrilege which was supposed to occur this evening at Harvard University.

"My daughter, I am feeling this suffering which you are experiencing; but how is my Heart supposed to feel, when I see my Son suffering in front of my eyes, as if though it was not enough for Him to offer Himself for the salvation of this world.

The evil one is getting closer and the people are following after him. It is not him (the devil) who is doing this thing, but rather all this thing that is happening, is being brought about by the hands of human beings. Many are the people who are allowing him (the devil) entrance, thereby enabling him to possess them.

My esteemed daughter, I ask and beseech from all of this world to kneel and beg and pray that this thing will not stand. Have I not said that you will witness serious things and tribulations? This thing is one of the

things I spoke about. My children, don't allow the evil one to win over you, since the path of the evil one will lead you to perdition.

How should I beseech you and beg of you to return; where is the love of this world to my Son? Return to my Son to enable Him to help you before the time passes (Jesus respects our free will, and will not be able to help save those who persist in rejecting Him to the very end, despite all His efforts to save them)."

The light slowly dimmed and the Blessed Mother disappeared.

Note: In the face of a nation-wide outcry, the Harvard Extension School Cultural Studies Club, has dropped its sponsorship of this disgraceful and despicable reenactment of a Satanic 'Black Mass' ritual, which was scheduled to occur Monday evening on 5/12/2014. Thanks be to God for answering our prayers.
